

TAOFEEK JIDE-IDOWU

Full Stack Developer (MERN)

Lagos, Nigeria.

+2349061575432 | idowutaofeek16@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

A detail-oriented Fullstack Developer and WordPress developer with a passion for creating interactive and responsive web applications. Proficient in HTML, CSS, JavaScript, and React.js with Redux and a Bachelor's degree in Zoology, with some experience in Python and MYSQL. Adept at problem-solving, collaborating in teams, and continuously learning to improve development skills.

WORK EXPERIENCE

May 2025 – August 2025

Frontend Developer Intern (Remote)

FlexiSAF

- Completed weekly development tasks focused on building responsive and user-friendly web interfaces using React.js.
- Implemented responsive and modern UI designs using Tailwind CSS, improving development speed and design consistency.
- Connected to backend APIs using axios.
- Implemented role-based routing to restrict access and ensure proper authorization.
- Managed global state with the React Context API, enabling seamless data flow and improving maintainability across applications.
- Integrated Unit-based testing using Jest.
- Built a School Employee Management System where school administrators can manage employee records, leaves requests and departments. Project: [School EMS](#)

SKILLS AND EXPERTISE

- Excellent communication, interpersonal, and problem-solving skills.
- Proficient in computer skills such as Microsoft word, programming with vast knowledge in the MERN stack (MongoDB, Express.js, React.js, Node.js) and WordPress.
- Tools and Technologies: VS Code, Git, GitHub, Netlify, WordPress.
- Strong planning and organizational skills with sense of priority for deadlines and attention to details.

PROJECTS

Version Control

- A project showing the effective use of Git and GitHub (branching, pull requests, merging, conflict resolution). Link: [Project](#)

School Employee Management System

- This is a full-stack web application using the MERN stack. This is a School Employee Management System which helps school administrators manage employee records, leaves requests and departments. This project helps schools manage internal records without the stressful and tedious use of Paper work. Link: [School EMS](#)

Simple Shopping Cart

- Built a simple shopping cart where you can delete and add products to cart and view details of each product. This was built using React.js.
